

## IMPORTANT SECURITY REMINDER

Security is a top priority of the Association and we have gone to great expense to help keep the building safe. However, security is not just locks and security systems; it requires us all to work together. Here are a few things you can do:

1. **Do not give out your access code** to anyone.
2. **Never buzz-in anyone you do not know.**
3. Make sure doors **and the garage close securely behind you.**
4. **Do not let anyone follow you through a door** or into the garage unless you recognize them. Never challenge anyone you feel might be dangerous, call the police if necessary.
5. If you **see anything suspicious CALL 911.**
6. **Don't leave valuables** in your car or storage locker. If you have a bike in the garage make sure it's properly secured to the rack with a **high quality lock**. Keep any articles that may attract thieves **out of sight**.
7. If you become the victim of vandalism/theft or notice something suspicious, **report it to the association immediately**. We will review security cameras, access logs, and send out a security bulletin but we need to know as soon as possible. You can use the maintenance request online.

Please don't be the weakest link. Let's work together to keep our home secure.
